

Table 5: Research facilities of Agroscope Wädenswil (ACW Wädenswil)

Type	Location	Further details
Laboratory facilities	ACW Wädenswil	state of the art laboratory facilities for pathology, entomology, nematology, microbiology, soil, plant and food related research, state of the art facilities for chemical analysis and molecular biological research
Facilities for food and beverage processing technology	ACW Wädenswil	state of the art technological facilities for food and beverage processing, microbiological and molecular biological research in beverage processing, experimental distillery
Greenhouse and Climate chambers	ACW Wädenswil	state of the art greenhouse and climate chamber facilities
Storage facilities	ACW Wädenswil, Güttingen	state of the art facilities for storage research (climate chambers, controlled atmosphere)
Experimental farm	ACW Wädenswil, Wintersingen, Güttingen	3 experimental farms for fruit-, vegetable production and viticulture, variety trial facilities, certified weather recordings
Experimental farm	ACW Wädenswil	Nuclear stock for virus free plant material, insect free growing facilities
On-farm research facilities	Various locations all over Switzerland	Variety trials, crop protection experiments, monitoring experiments, long-term research, full factorial trials
Farm network	Various locations all over Switzerland	Farm network for economic research in fruit production
